RAM

**I-DUV**   
DESIGNED FOR **RAM**

IF YOUR VEHICLE IS STOLEN

24/7 TOLL-FREE VEHICLE  
RECOVERY ASSISTANCE  
WITH REAL-TIME  
POLICE COMMUNICATION

The police will know the precise location of your vehicle so it is possible to recover it in minutes, instead of days.

Insurance discounts may apply, consult your insurance carrier.

This brochure is for information purposes only. The terms of the protection device contract and its limited warranty are subject to exclusions and limitations, as set forth in that contract and the limited warranty, and may vary in different regions. The terms and conditions of the contract for the optional purchase of the protection device and its services may vary according to the services chosen by you. All Guidepoint Connected Car Devices and Recovery Systems require a constant 12-volt power source as well as cellular and GPS Satellite service to be available and operating for your features to function properly. (See terms and conditions for complete details).
